Discover Scuba Course

Explore a sport that will appeal to your sense of adventure and give you another reason to select a tropical location for your next vacation. There's nothing like breathing underwater, although doing it for the first time may require a little adjustment to your new environment. Our Discover Scuba program helps you to get adjusted slowly to your new adventure.

Phase I

In The Classroom

Total Time: about 30 minutes

We begin by spending some time in class, learning about the underwater environment and how you can safely explore it. We'll learn about the equipment you'll use, the way to breathe underwater and the basic skills you'll need.

Phase II

In The Pool

Total Time: about 90 minutes

Then we'll move to the pool, where you can try all your new knowledge in a very controlled environment under the direct supervision of our experienced instructors. We'll teach you the basic skills and safety rules you need.

We then begin to explore the underwater environment together. You'll experience the fun of

breathing and swimming underwater without having to surface for air! Relax and enjoy your experience; then if you want to pursue your full certification, we can help!

Discussing Skills in Four Feet of Water

Practicing New Skills Underwater

What To Bring

We'll supply you with all the equipment you need to take your first dive; all you bring is a swimsuit and towel.

Who Can Play

You must be at least 10 years old to enter this course.

The Next Level

Our **Open Water Diver** certification class will allow you to receive scuba diving services around the world.

We offer PADI, NAUI, SDI and TDI certifications, our instructors are certified to teach CPR, AED usage, First Aid, O2 Administration and are accredited Rescue Divers.
